

**aCOLyte 3** is an affordable, automated colony counting device. The system is available in one configuration and has simple-to-use software and lighting from white LEDs above and below your plate. These features allow you to automatically count colonies on a range of pour and spiral plate media and then directly transfer your results to Excel or Open office. The system also has a detachable screen for eliminating strong ambient light, if it causes plate reading issues in your laboratory.

# aCOLyte 3

**aCOLyte 3 is ideal for:**

- Accurate colony counting of 90mm plates
- Detecting colonies as small as 0.1mm
- Counting colonies on dark or light coloured media
- Generating and displaying plate images
- Full traceability and archiving results
- Use on small lab bench spaces
